

Suzanne's Artist Statement

Suzanne's paintings are explorations of spontaneous, intuitive energy as it arises in her body. She attunes to a clear and strong urge to create and follows the impulses, her own natural rhythms which ebb and flow. Her paintings ultimately express her own true nature; a nature which is inherent in all of Life. Suzanne's images are non-objective, emotional personal expressions and yet they also transcend the personal. Her markings are an inner language she continues to discover on her unique journey in being alive. Suzanne feels directly connected to people who first made marks to communicate and to the natural markings of nature.
